## Retail Analysis of Superstores

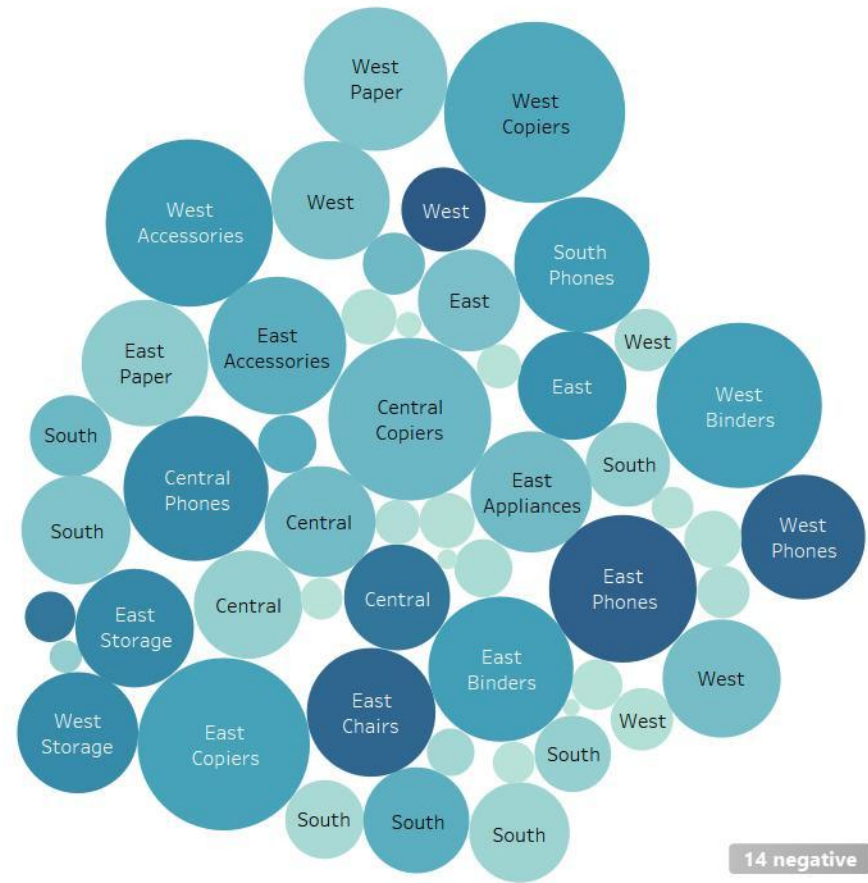

- The dashboard above shows the sales trend across different dimensions.
- The region-by-region breakdown of the total sales that were tallied is shown in the pie chart. Moreover, this can function as a filter. The other visualisations are filtered in accordance with your selection of one or more regions.

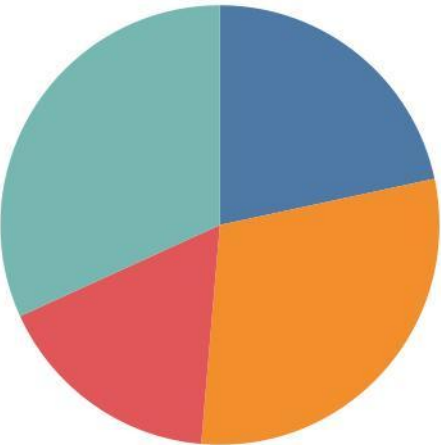

The extent of total sales in each city is depicted in a bar graph.

- The contribution of each subcategory to the total sales recorded is shown in the bubble chart. where the subcategory's overall sales are represented by the size of the bubble.
- The Map chart uses a color-coded system to depict the pattern in sales across various states.
